SUMMARY

I'm a Full-Stack Engineer experienced in building production-grade applications using React.js, Angular, Next.js, Node.js, Express.js, and MongoDB. My work spans vehicle marketplaces, training and certification platforms, analytics portals, e-commerce applications, LMS platforms, and AI-enabled products — with a focus on clean UI, reliable backend systems, authentication, integrations, and scalable workflows.

EXPERIENCE

Epek Software Solutions Pvt. Ltd. (ESS)

February 2025 — Present

Full-Stack & AI/ML Engineer · India

- Develop and maintain production-grade full-stack applications using React.js, Angular, Next.js, Node.js, Express.js, and MongoDB.
- Design and integrate RESTful APIs, authentication, authorization, RBAC, 2FA, and cross-portal workflows.
- Develop responsive dashboards, data-driven interfaces, backend services, and third-party integrations including SendGrid.
- Work across frontend and backend codebases to implement features, troubleshoot production issues, optimize applications, and support deployments.
- Contributed to vehicle marketplace, training and certification, audience intelligence, and operational management platforms.

Advisions Research and Development Private Limited

January 2024 — February 2025

Software Developer · India

- Developed full-stack applications using React.js, Node.js, Express.js, MongoDB, and RESTful APIs.
- Built a role-based Learning Management System with course enrollment, assignments, scheduling, payments, and real-time collaboration.
- Developed KalamLab, an AI-enabled virtual school with live classes, assignments, discussions, announcements, and real-time notifications.
- Implemented JWT/RBAC authentication, media management, Docker-based deployment, Nginx, and PM2.

SELECTED PROJECTS

YouAreTheDealer

Vehicle Marketplace · 2025

Implemented end-to-end marketplace workflows with structured APIs and real-time offer tracking.

React.js · Node.js · Express.js · MongoDB · REST APIs · JWT

AIP

Audience Intelligence · 2025

Built analytical workflows for geographic enrichment, data suppression, visualization, and downloadable reporting, with Stripe-powered report purchases and subscriptions.

React.js · Node.js · Express.js · MongoDB · Maps · Stripe · CSV · XLSX · PDF

KalamLab

AI-Powered Virtual School · 2024

Delivered a scalable backend and real-time learning workflows with secure authentication, media management, and production deployment.

Node.js · Express.js · MongoDB · Jitsi · JWT · RBAC · Socket.io · Cloudinary · Docker · Nginx · PM2

Drivonic Platform Multi-portal product · 2025

Unified authentication, role access, and client management so the suite behaves as one product with reliable cross-portal flows.

React.js · Angular · Node.js · Express.js · MongoDB · JWT · RBAC · 2FA

Training Drivonic Portal Training & Certification · 2025

Implemented automated certificate generation and integrated training workflows across the platform.

React.js · Node.js · Express.js · MongoDB · PDF Generation · REST APIs

CuraLynx Medicine E-Commerce · 2025

Delivered a functional medicine marketplace with customer ordering, order tracking, automated email communication, and admin management.

React.js · Node.js · Express.js · MongoDB · SendGrid · REST APIs

Operational Management System Enterprise Platform · 2026

Built and maintained interconnected modules and portals supporting operational workflows, authentication, reporting, payments, and data management.

React.js · Angular · Next.js · Node.js · Express.js · MongoDB · JWT · RBAC · 2FA

TECHNICAL SKILLS

Frontend	React.js, Angular, Next.js, JavaScript, TypeScript, HTML5, CSS, SCSS, Responsive UI, Server-Side Rendering, Dynamic Routing
Backend	Node.js, Python, Express.js, RESTful APIs, Authentication, Authorization, JWT, RBAC, 2FA, bcrypt
Database	MongoDB, NoSQL, MySQL, Mongoose, Data Processing, Data Visualization, Aggregation, Schema Design
DevOps & Tools	Linux, PM2, Gunicorn, Nginx, Docker, Git, GitHub, PDF Generation
Payments & Integrations	Stripe, Razorpay, SendGrid, Third-Party API Integration, Cloudinary, Jitsi, Socket.io, Real-time Applications
AI/ML	Machine Learning, NLP, OCR, Text Processing, Transformer-based Models, Information Retrieval, Document Processing

EDUCATION

Jamia Hamdard 2019 — 2023

B.Tech in Computer Science & Engineering · CGPA: 8.4

St. Joseph's School 2019

Intermediate — PCM
